

Copyright Law

Departmental Procedure for Moodle

Any journal articles that are required reading, should be linked through [iDiscover](#) by their permalink.

Search for article, click on title and the following screen displays

Click on permalink (chain icon) and copy.

The link can then be added on Moodle.

Otherwise, in order to comply with copyright law, you need to do the following:

- Send pdf of the article to library@psychol.cam.ac.uk for copyright clearance.
- This involves checking permissions, adding a cover page outlining copyright and entering details on our annual return to the Copyright Licencing Agency.
- The Librarian will send the pdf back to you ready for upload on Moodle.
